

# Water and Flood Mitigation and Recovery

More homes and facilities  
are damaged  
By **WATER**  
than by **FIRE**  
**WE CAN HELP!**

## More homes and facilities are damaged by Water than by Fire.

Water Damage can cause devastating destruction to your home or business. It can be caused by flooding, burst pipes, sewer backups, fire, roof leaks, hurricanes and rainstorms. These water losses occur in homes, offices, hospitals, schools, factories, stores and other buildings. You probably know someone who has opened a business or returned home to find an area full of water after a hot water heater malfunction or pipe break. Whatever the cause, **Volusia-Flagler Water & Fire Restoration, Inc.** is available around the clock to respond to the emergency. After the initial call, we guarantee to respond to your residential or commercial water loss within 30-160 minutes (locally) and 4-8 hours anywhere in the state. Our knowledgeable staff will answer your call live 24/7, ensuring immediate action.

Since 2001, **Volusia-Flagler Water & Fire Restoration, Inc.** has serviced Florida's East Coast and the Florida Keys using the most recent drying technologies and providing a coordinated effort to control losses. We will monitor your loss utilizing infrared imaging cameras and moisture detection meters to insure accuracy and efficiency during the drying process. Our project managers monitor the drying process through every phase to ensure proper drying of structure and contents. We will reduce the time it takes to dry most structures and minimize economic loss and inconveniences. A properly dried structure is a healthy structure, improper drying can result in mold growth and secondary damage.

Our 3-shifts of highly trained personnel will rapidly respond around the clock to your water and flood damage needs. Our proven track record, meticulous documentation, diversified experience and drying techniques make **Volusia-Flagler Water & Fire Restoration, Inc.** the most trusted name in water and flood mitigation.
